

Andrea Luna (Educational Assistant/Extended Care)

Andrea is excited to be a part of the BCA community again this school year. She completed a B.A Honours in Psychology, Neuroscience, and Behaviour at McMaster University, where she focused primarily on child development. She has worked one-on-one with children with ASD in a private school setting and through recreational programs at the YMCA. She completed her B. Ed. at Brock University, where she gained experience teaching at different schools throughout Ontario using an interest-based approach. From a very young age, she has been serving at her church by teaching Sunday school to elementary-age children.

Andrea is passionate about helping students succeed both socially and academically while encouraging them to grow in their faith. In her spare time, she enjoys going to the gym, attending bible studies and photographing events with her husband.
